## for Critical Care Professionals

AMD Global Telemedicine

DOCBOX®
THE CLINICIAN ASSISTANT IN CRITICAL CARE

The power of synergy to
*empower critical care
on-site and remotely*

With DocBox...

Reduce nursing documentation time by 70%
based on automated nurse workflow sheet

Solve the integration challenge
with our ICU interface that integrates siloed data with EHR (bi-directional)

Access quality data
for AI, machine learning and application development with ~2GB of data per patient/day

Recover Revenue
by automatically capturing billable clinical interventions

Improve patient care
by aggregating all medical device data and waveforms right at ICU bedside
